PITTER ENTERPRISES LLC

# The Pilot apps

## Software for the working shop

Built in a fabrication shop. Designed for fabrication shops.

## FAB PILOT

# Know where every job stands

Prepare estimates and manage fabrication work, with job priorities, employee time and costs in view.

**Direct the work**

**Capture shop time**

**Prepare estimates**

**Review before billing**

Estimating and production management

## INVENTORY PILOT

# Know what you have. Know where it went.

Scan barcodes, record stock movement and attach checkouts to jobs so the stockroom has a usable history.

**Scan and identify**

**Check in and out**

**Organize the stockroom**

**Prepare billing records**

Barcode inventory and stock movement

## INVOICE PILOT

# Keep the paperwork moving

Manage customer orders, quotes and invoices, with purchase-order documents and job details close at hand.

**Keep customer orders**

**Build quotes and invoices**

**Bill in stages**

**Review the money**

Customer orders, quotes and invoicing
